School Description

The Adult Transition Program serves students who have earned a Certificate of Attendance from their high school. Students will attend the program from ages 18-22. The Garden Grove Unified School District Adult Transition Program serves students who reside in Garden Grove, Anaheim, Stanton, Cypress, Westminster, Fountain Valley and Santa Ana.

The Adult Transition Program is designed to assist special education students' transition from high school to the role of a contributing adult in the community. The local community is utilized as a means for reinforcing instruction. Community Based Instruction is designed for students to generalize skills in a more natural setting, using occurring events and situations that our students will encounter throughout life as adults. Students participate in multiple domains of function, including functional academics, social skills, communication, vocational skills, daily living, and recreation and leisure. Students participate in various community-based experiences as appropriate.

School Safety

Maintaining a safe and orderly environment is essential to learning. The Adult Transition Program is a closed campus, and visitors must immediately register in the school office before entering the campus. The administrators, certificated and classified staff, main office personnel, and maintenance and custodial care employees monitor school access.

The Adult Transition Program operates a school safety committee consisting of certificated and classified staff who meet throughout the year to address safety issues for students and employees. A comprehensive school safety plan is reviewed and updated annually. It was most recently updated and reviewed with school staff in November 2024.

Both students and staff participate in regularly scheduled emergency drills to reinforce and practice emergency protocols and procedures.

Professional Development

GGUSD's professional-development program centers on research-based effective instruction with embedded strategies to scaffold and differentiate for diverse learners. Teachers are supported in their implementation of effective instruction through extensive training and targeted in-class support. The use of student-achievement data also assists in providing clear goals and expectations for planning in-services for teachers and paraprofessionals.

Intensive workshops are conducted in late August during the week before school starts to provide teachers with new knowledge and enhanced skills for the upcoming school year, with an emphasis on the strategies to support language learning in mathematics, English language arts and content areas. Staff-development opportunities are also offered after school and by release time throughout the school year to provide in-class demonstrations as well as opportunities to understand the standards and across content areas. Additionally, one non-student day is set aside each year for staff development for all high school teachers in the district. Teachers collaborate in grade level and course-alike teams throughout the school year to plan lessons, analyze student achievement data and student work to ensure a high quality and rigorous academic program with high student expectations.

New teachers are provided an extensive new teacher training program. Classroom management, the district's base program, report cards, parent-teacher conferences and research-based strategy instruction are just a few of the subjects of training for new teachers.

District Mission Statement

To ensure student success, we will provide a rigorous and supportive academic experience that motivates all learners to meet high expectations.

District Vision Statement

We are committed to preparing all students to be successful and responsible citizens who contribute and thrive in a diverse society.

School Accountability Report Card

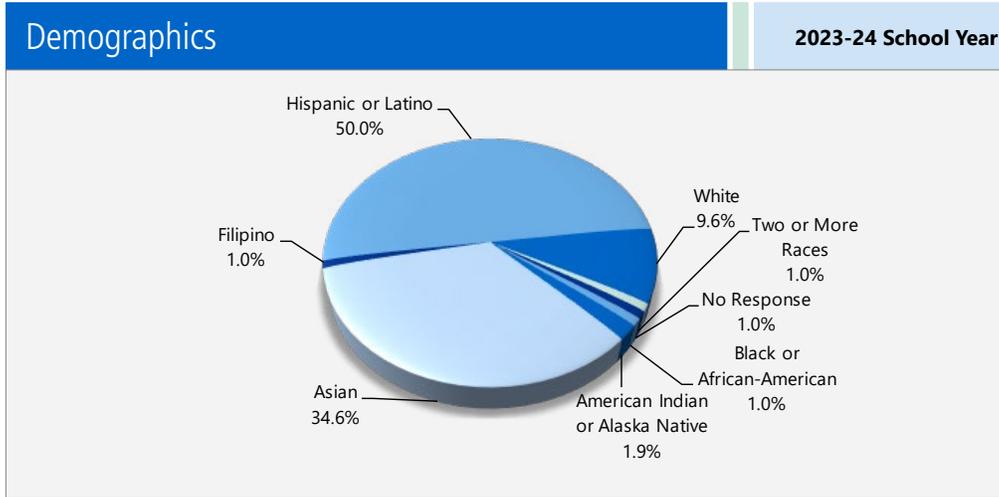

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

School Programs

The district receives additional funds for a number of special services and programs. Among the special programs offered at the school are the following:

- California Children’s Services
- Regional Center of Orange County
- Special education
- Orange County Transportation Authority
- Workability
- Extended school year programs for special education
- GGUSD Nutrition Services

The GGUSD strives to ensure all students have equal access to a quality, standards-based educational program. Parents at the Adult Transition Program are involved in decision-making through annual Individualized Education Plan (IEP). School staff is involved in decision-making through surveys, staff-development programs, staff meetings and various school committees.

In-class performance assessments, classroom observation and class participation are utilized for a comprehensive profile of individual student performance. Grade reports, referred to as IEP Goals/Objectives Progress Report to Parents, and are distributed quarterly. The reports include detailed written summaries on each student’s progress attained toward his or her written IEP goals. Recommendations for each goal are also described on the Progress Report, indicating “Goal Met,” “Continue Goal” or “Goal Not Met.”

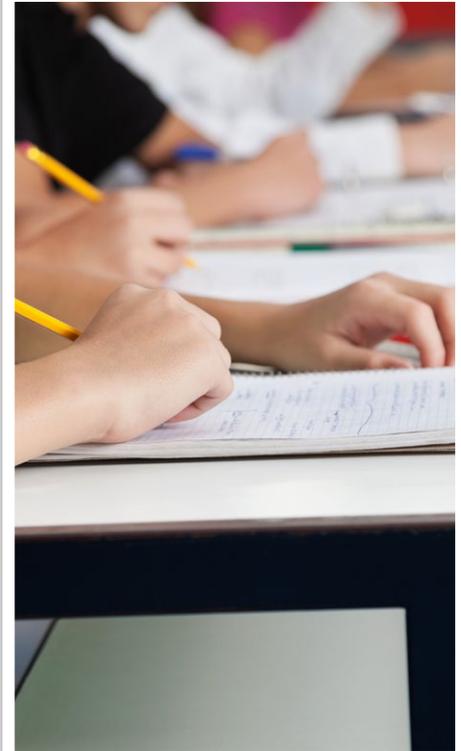

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade 10, 11 or 12).

CAASPP Test Results in Science for All Students

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP—California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8 and once in high school (i.e., grade 10, 11 or 12).

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The “percentage met or exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

❖ Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Graduation and Dropout Rates

This table displays the graduation and dropout rates for the most recent three-year period for which data is available. The four-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class. From the beginning of grade 9 (or the earliest high school grade), students who are entering that grade for the first time form a cohort that is "adjusted" by adding any students who subsequently transfer into the cohort and subtracting any students who subsequently transfer out.

Admission Requirements for the University of California (UC) and California State University (CSU)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu>.

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu>.

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Textbooks and Instructional Materials

The Adult Transition Program utilizes a multitude of progress monitoring tools and instructional materials to directly instruct and record progress on identified Individualized Education Program (IEP) goals and objectives. These include instruction using Unique Learning Systems, the Brigance, and curriculum-based measures. Data is collected using common tools in assessing progress on identified student goals.

Availability of Textbooks and Instructional Materials

The following lists the percentage of pupils who lack their own assigned textbooks and instructional materials.

Percentage of Students Lacking Materials by Subject		2024-25 School Year

Public Internet Access

Individuals without home Internet access can use computers with Internet connections at public libraries within the Garden Grove Unified School District to download and view School Accountability Report Cards. Access to the Internet at libraries is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Parental Involvement

There are many opportunities in the district for parental involvement through participation in parent support organizations, booster clubs, school site councils and district-level advisory committees.

The Adult Transition Program focuses on our young adults transitioning to being independent community members. Parents at the Adult Transition Program may have opportunities to participate by volunteering at schoolwide activities, helping with fundraisers, donating items for special events, recruiting support from community agencies, and chaperoning at a variety of individual class and all school off-campus community experiences. Parents can attend our events and informational nights.

For more information on how to become involved at the school, please contact Joell Sparks, principal, at (714) 663-6486.

School Facility Good Repair Status

The table shows the results of the school’s most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. This inspection determines the school facility’s good repair status using ratings of good condition, fair condition or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair or poor. Additional information about the condition of the school’s facilities may be obtained by speaking with the principal.

Workforce Preparation

The main focus of the Adult Transition Program is to prepare students for life after the age of 22. Our students have jobs we have placed them in at various local companies. We build résumés and provide numerous on-site job trainings.

School Facilities

Garden Grove Unified School District (GGUSD) continues to pride itself on maintaining quality facilities to provide a safe learning and working environment for its students and staff. School custodial and district maintenance staff conduct frequent inspections to ensure that all sites are clean, safe, well maintained and in good repair. Mobile cleaning teams have been used to provide in-depth cleaning-assistance services. The Maintenance Department is in the process of implementing preventative maintenance programs that ensure all schools are maintained at an efficient operating level. All classrooms, playground areas and working space for students and staff satisfy building capacity requirements of the Education Code.

The Board of Education has adopted a five-year maintenance program for the improvement of school sites, and major site-improvement projects are approved annually as needed. Graffiti-removal personnel help to keep schools free from graffiti.

The Garden Grove Unified School District has always emphasized the importance of a clean, safe environment for learning and working. The environment of each campus is a matter of pride for students, staff and parents. To ensure our facilities are in good repair condition, custodians at each site perform monthly inspections, and the district maintenance crews attempt to complete their work orders in a timely manner. Several schools have planted individual gardens, allowed sponsored projects by both the PTA and the Eagle Scout program with the Boys Scouts of America, to enhance our campuses throughout the district.

GGUSD Adult transition Program School was built in 1967. The school has six permanent classrooms and three portable classrooms in use on the campus. The school has two multiple-purpose rooms, fully functioning kitchen and basketball court.

In June 2010, GGUSD voters approved Measure A, authorizing \$250 million in general obligation bonds and enabling the district to qualify for as much as \$200 million in matching state school bond funds for large-scale infrastructure repair, improvement and modernization projects. As an added funding bonus, \$47 million in supplemental school-improvement grants were secured, increasing the total projected Measure A budget to \$503 million over the seven to eight years required for the completion of all bond-financed projects. Additionally, Measure P, authorizing \$311 million was approved by voters in 2016 that enabled our district to implement many improvements including seismic upgrades, new athletic stadiums and added air conditioning and energy conservation improvements to all of the remaining Elementary Schools.

School Facilities

Continued from left

Bond proceeds, combined with state matching funds, are financing such wide-ranging school improvements as renovating electrical circuitry, plumbing, lighting, roofing, intercom and fire-safety systems; improving energy efficiency; replacing doors, windows, and outdated heating and ventilation systems; updating playground equipment and safety matting; upgrading telecommunications systems to accommodate current technology; replacing restroom plumbing, tile, and fixtures; retrofitting schools for better accessibility for the disabled; burying new underground conduits for technology growth; installing new classroom carpeting; repainting school interiors and exteriors; and new underground natural-gas piping.

We have completed air conditioning for classrooms in all 65 schools. All seven high schools have been completed. Throughout the district, modernization projects are on-time and on budget. All seven comprehensive high schools had LED field and tennis court lighting completed. We appreciate your patience as we work to ensure that all of our schools remain successful and comfortable places to learn and work.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The data source is the California State Assignment Accountability System (CalSAAS) provided by the Commission on Teacher Credentialing. For information on the CalSAAS, visit the CALPADS web page at <https://www.cde.ca.gov/ds/sp/cl/calpadsupdfdash201.asp>.

Supplemental/restricted expenditures come from money whose use is controlled by law or by a donor. Money that is designated for specific purposes by the district or governing board is not considered restricted. Basic/unrestricted expenditures are from money whose use, except for general guidelines, is not controlled by law or by a donor.

Data for this year's SARC was provided by the California Department of Education and school and district offices. For additional information on California schools and districts and comparisons of the school to the district, the county and the state, please visit DataQuest at <http://dq.cde.ca.gov/dataquest>. DataQuest is an online resource that provides reports for accountability, test data, enrollment, graduates, dropouts, course enrollments, staffing and data regarding English learners. Per Education Code Section 35256, each school district shall make hard copies of its annually updated report card available, upon request, on or before February 1.

All data accurate as of December 2024.
